Application Question Cards – Teacher Instruction Sheet

Application Question cards provide a starting point for the teacher during application. Use them to get a discussion going.

There are 2 types of cards:

1. **Gauge Understanding:** These cards should be used first. These questions are designed to help you figure out if your group of kids understood the lesson.
2. **Apply Truth to Life:** These cards should be used next. These cards contain questions designed to help kids figure out the connection between Biblical truth and their own lives. The goal is for the kids to respond to the Biblical truth. Download the Apply

Download them as PDFs here: [Gauge Understanding](#) and [Apply Truth to Life](#).

Some cards have fill in the blank questions. For example, one Apply Truth to Life card reads, “How can you remember to?” Fill in the blank with whatever fits best for that particular Sunday. It could be the main point of the lesson, it could be an area of life application, or it could be a very specific action you are encouraging the kids to take. Ex. “How can you remember to trust God when you’re scared?”

Use the cards to get started, but always go deeper. You want the kids to see how the truth taught in the lesson relates to their lives right now and to choose to respond to that truth in the situations they will face in the upcoming week.

Get creative with how you use these cards:

- Choose a few from each category and stick them in your Bible.
- Hand them out to kids during application time.
- Use them to play games.
- Watch my blog for my ideas on how to use these cards during Application time.

Not every card will be applicable to every lesson. Use the cards as a springboard and adjust the questions when necessary.
